

Welcome to February 23 “Managing Research” Open Day

Mananga Centre, a training institute is pleased to announce that it will be opening its doors to student undergraduates, postgraduates, aspiring professionals, policy makers, marketing officers, research development officers, officials, ethics members and community leaders for the “**Managing Research**” - **Open Day** scheduled for February 23, 2019 from 9 am to 12 pm.

Managing Research-Open Day is a conducive platform that encourages the uptake of research for academic and professional purposes. The first 20 undergraduates, postgraduates and aspiring professionals applying for early admission on this day will receive a partial scholarship on subsequent classes with respect to research planning, execution and reporting.

The Managing Research-Open Day will be a challenging and rewarding experience to anyone who conducts research, fund research and who are better positioned to implement their research findings. Participants will explore the course on how to manage a research assignment, discuss research support, meet support consultants and get the answers to all the questions they have about research, study options, and much more.

A good number of activities promoting research creativity, implementation and funding will be highlighted.

To book your seat and learn more about **Managing Research- Open Day** and support classes, please contact Joy Nxumalo, Registrar, cell number 76020992, e-mail: registrar@Mananga.org

We look forward to meeting you and discuss what research can do to meet the needs of students (undergraduate and postgraduate), practitioners, policy makers, or the local public.
